

FunCopter™ GAMES

Save the Copter (this game can be played by yourself, although it is more fun in a group).

- a. Into the Launch Tube load 1-4 Copters of the same color (Color A), and 1 Copter of a different color (Color B).
- b. Launch the Copters up and away from yourself.
- c. Catch as many of the Copters as you can before they land (be careful not to crush the Copters by grabbing them too tightly!)
- d. Score any caught Color A Copters as 1 point and score the Color B Copter as 5 points. The first player to 100 wins the match.
- e. Score the catching of ALL the Copters as 20 points *IF* 4 of Color A and the 1 Color B Copters were used in the first two steps.
